

for successful business relationships

Find the right school

In order to find the right school for your clients or executives child we evaluate the student's personal interests and talents and give recommendations on how to maximise the school experience, both academically and personally.

Find the right career path

Finding the right career path is a demanding process. Our experts use the most recent test techniques combined with long-time experience to provide young people with ideas and inspiration to find the right career for them.

Find the right university

Your clients or executives may find it difficult to decide which university would best cover the needs, foster the talents and meet the expectations of their children. Our team of highly competent university counselors will assist you in making the right choice. With our profound knowledge of colleges in the US and Europe, we are in a position to provide comprehensive support in university matters.

Description of Services

University counselling

Length of consultation

Depending on whether our consultation starts in 11th or 12th grade we will accompany the student for 1-2 years during the entire process starting from the initial consultations to the final selection.

Psychometric testing

Preparing for university often involves making some decisions about potential career paths. We can help with psychometric and aptitude testing that matches the student's personality and academic strengths and other talents with suitable career options. Our expert uses the most recent test techniques to provide young people with ideas and inspiration to find the right career for them.

Mock interviews

College interviews can often prove significant in the admissions process. It is important that students become familiar and feel comfortable with the types of questions that are frequently asked in college interviews. During mock interviews, students will be coached in the art of college interviewing by an expert and students will know what questions to expect and how to answer those questions.

Essays and personal statements

Depending upon the number of colleges to which the student is applying and the number of essay questions each college is requiring, this can be a daunting and often intimidating task. We strengthen the student's voice and present the best possible aspects of his/her personality. Throughout the application process, we continually work on style, tone, and format.

Letters of recommendation

We discuss with the student whom to ask for letters of recommendation and teach the student how to "impress" his/her guidance counselor and teachers so that the letters of recommendations will eventually impress admissions counselors.

Continuous support

Throughout the process we are available and have the expertise to help the student and the parents with their concerns. From specialized application questions, appropriate usage of credit cards, finding an apartment to any other daily business we will support the student and parents at our best!

Initial consultation and evaluation

In order to give the best possible consultation we begin by reviewing and evaluating the student's high school transcript (courses and grades), PSAT, SAT/ACT scores, extracurricular and personal activities, special talents, high school profile, and courses the student plans to take the following year. Then the student's accomplishments, greatest achievements, and ways to highlight strengths and address any weaknesses will be discussed. We then make recommendations on how the student can maximize his or her high school experience both academically, personally. We also discuss specific colleges in which the student may express interest, and make some preliminary suggestions of colleges that would be most suitable for the student based on all the factors derived from this session.

College search

From our consultation and evaluation, specific factors that the student is looking for in a college (size, location, setting, cost, extracurricular activities, etc.) we can put together a list of colleges which is reviewed and refined until all applications are mailed.

College visits

We encourage students and their families to visit colleges. We make appointments for campus tours, information sessions and special arrangements so that the student may attend specific classes. We support you in setting-up overnight stays through the admissions office. When the student and parent attends campus information sessions and tours, they begin to appreciate what is or is not appealing about particular colleges. This process begins to narrow down the student's choices.

Supplemental material

In the case of a talented student (musician, athlete, actor, science researcher, writer, artist, computer specialist, etc.) we can come up with a more detailed "resume" listing and more specific involvements. Assistance in order to write letters to college coaches, directors and mentors will be provided.

Final college selection

After acceptances are received, we assist the student and the parents in making the final decision of which college to ultimately attend.

Description of Services

Private school counselling

The right school

Whether your client or executive child needs a bilingual education, a focus on science or art, our experts can help find exactly the right school.

We begin our consultation by reviewing the child's personal interests, activities and special talents. We then make recommendations on how the student can maximize his or her school experience both academically and personally.

We will contact the admissions office of potential private school's and encourage parents and children to visit their campuses. When the student and parent attend tours, they begin to see what is or is not appealing about particular schools, and thus we begin to narrow down the student's choices.

Tutoring

Finding the right tutor who corresponds to the needs and expectations of your client's or executive's children can be a challenge. For all subjects and classes we will arrange meetings and learning sessions with the most skilled teachers. With our large network and long-time experience we can find the best tutor. Anywhere in the world!
